

The diagram consists of two ovals. The left oval contains the text 'source code:' followed by an indented line 'for key in filtered_fasta_dict:'. The right oval contains the text 'filtered_fasta_dict' followed by an indented line 'Read'. This suggests that the source code is using the 'filtered_fasta_dict' to iterate over 'Read' objects.

```
source code:  
    for key in filtered_fasta_dict:
```

```
filtered_fasta_dict  
    Read
```
