

source code:
if max_length > 0:

max_length
Read

0

>

```
graph TD; A([max_length Read]) --> C((>)); B([0]) --> C;
```

The diagram illustrates the flow of data into a comparison operator. Two nodes, 'max_length Read' and '0', are positioned above a central node containing the greater-than symbol '>'. Arrows point from each of the upper nodes to the central node, indicating that both values are inputs to the comparison operation.
